comparison date 30/09/2020

Numbers reduced by 515 head down to 3,428 at Dalby. A full panel of export buyers was present, however not all were operating. The usual feeder and trade buyers plus local and interstate restockers were present and active in the market, with 1,000 head purchased by interstate restockers. Light weight yearling steers returning to the paddock were well supplied and averaged a further 12c/kg dearer. Medium weight yearling steers to feed improved in price by 6c to 13c/kg. Heavy weight yearling steers to feed averaged 5c/kg dearer. Light weight yearling heifers to restockers or background averaged 9c to 27c/kg better. Yearling heifers to feed received strong demand for the quality penned. Good heavy weight cows could not maintain the increased prices experienced the previous sale and lost 7c to 20c/kg. However plain condition cows returning to the paddock went against this trend to average 6c/kg better.

Yearling steers under 200kg made to 569.2c with a good sample averaging 516c/kg. A large number of yearling steers under 280kg made to 546c to average 474c/kg. Yearling steers to feed for the domestic market averaged from 416c to 446c with occasional sales to 470c/kg. Heavy weight yearling steers to feed made to 415c to average 405c/kg. Light weight yearling heifers under 200kg averaged 487c and made to 518c/kg. Yearling heifers under 280kg made to 473c to average 442c/kg. Yearling heifers to feed averaged from 391c to 411c and sold to 433c/kg. Heavy weight yearling heifers to feed averaged 373c and made to 384c/kg.

Heavy grown steers to export processors made to 384.2c to average 364c, and bullocks made to 381.2/kg. Medium weight plain condition cows returning to the paddock made to 286c with a large sample averaging 281c/kg. Good heavy weight cows to export processors made to 300c to average 290c/kg. Heavy weight bulls made to 343c/kg.
